## SUMMARY

Dedicated frontend web developer possessing skills in user interface development, Git, debugging and web hosting. I am a team player seeking an environment to develop and display my skills through dedicated principles and protocols to the highest professional level in the field.

---

## EXPERIENCE

**2020 /September – 2021/August**  
**Junior NOC Engineer, National Information Technology Agency, Accra**

- Delivered tier-1 network ticketing support to resolve issues for more than 200 users.
- Continuously monitored the performance and health of a network using the SolarWinds software and generated reports on downtime daily.
- Ensured prompt troubleshooting and escalation of network problems within stipulated time to achieve maximum network uptime on my shifts.

**2020 /April – 2020/June**  
**Intern-Data Analyst, Kudigo, Accra**

- Interpreted and analysed data to drive growth for clients during the Covid-19 pandemic.
  - Improved business intelligence to prevent loss of revenue for clients.
  - Collaborated with colleagues to identify client needs and new ways to fulfil said needs.
- 

## EDUCATION

**Azubi Africa**  
AWS Certified Solutions Architect  
April 2022 – Present

**Azubi Africa**  
[AWS Certified Cloud Practitioner](#)
